queen victoria: the woman who redefined britain's monarchy
Victoria, in which she died in 1901, was the first woman to reign in her own right when she succeeded her father, William IV, in 1837. She was 21 years old at the time and, as a child of the 19th century, she was expected to be the object of adoration and affection. In fact, she was not. She was seen as a weak and feeble monarch, subject to fits of depression and nervous breakdowns.

queen victoria: the woman who redefined britain's monarchy
She was a woman of the 19th century, a woman who had to be strong and powerful in order to hold her own in a man’s world. She had to learn to be a good administrator, to be a good diplomat, to be a good military leader, to be a good husband, to be a good mother.
