Many thanks to Dr. Gabriel Velez of Marquette University for editing and organizing this compendium. Our ability to provide a voice for scientists and engineers and to advance science depends on the

2019 conference: compendium of notes
Julian Baggini I don't fear death but nor do I look forward to it! Mortality gives me a bitter-sweet appreciation of life every day. Think of how the Japanese celebr....more!

julian baggini
The book does not claim to be an exhaustive compendium. It is more like an old map, an invitation to adventure which might take the form of travel or philosophy or, preferably, both. I recommend it

the meaning of travel by emily thomas
Quite the opposite. I believe my understanding of the core Unix/Linux philosophy is much stronger because I had to “tough it” through the early
When pursuits such as mastering your init

**Making the case for slackware in 2018**
1. The equations of motion of viscous fluid (obtained by grafting on certain terms to the abstract equations of the Eulerian form so as to adapt these equations to the case of fluids subject to

**Iv. On the dynamical theory of incompressible viscous fluids and the determination of the criterion**
The role and value of theory in improvement work in healthcare has been seriously underrecognised. We join others in proposing that more informed use of theory can strengthen improvement programmes

**Demystifying theory and its use in improvement**
While every effort has been made to follow citation style rules, there may be some discrepancies. Please refer to the appropriate style manual or other sources if you have any questions.
